

T-System and Precision Practice Management Partner to Create a Dynamic Solution for the Urgent Care Setting

T System COMPLETE CARE offers an end-to-end clinical and business process solution to help urgent care centers drive efficiency and maximize profitability

DALLAS – May 4, 2018 – As urgent care centers continue to grow in popularity among patients and healthcare systems alike, they need technology and services to help enhance both clinical and business processes. To meet this need, [T-System, Inc.](#) has partnered with Precision Practice Management, Inc. to create the T System COMPLETE CARE™ solution designed for urgent care centers' unique workflow requirements and revenue cycle results.

Combining T-System's expertise in creating clinical documentation solutions with Precision Practice Management's deep knowledge in helping providers improve business processes, T System COMPLETE CARE is an outcome-focused solution that helps urgent care centers improve financial performance.

“We recently worked with T-System and Precision Practice Management to implement T System COMPLETE CARE, and realized immediate workflow improvements, streamlining both our clinical documentation and claims processing,” said Kevin M. Hazlett, CEO of Express Medical Care. “T System COMPLETE CARE has greatly enhanced the business side of our urgent care center and has allowed our providers to focus their efforts on providing outstanding patient care.”

T System COMPLETE CARE is a fully integrated, end-to-end business and clinical solution, offering intuitive documentation templates, powerful practice management software and advanced revenue cycle services that maximize revenue and ensure compliance, helping urgent care centers to optimize their financial health.

“T-System knows urgent care clinical documentation and workflow. Precision Practice Management knows the business behind your practice. Together, with T System COMPLETE CARE, we're offering an unparalleled, comprehensive solution for urgent care centers,” said Alan Pulliam, Vice President of Precision Practice Management.

T System COMPLETE CARE is generally available to urgent care centers nationwide. Cloud hosted and web delivered, the new solution is easy to implement and offers great value to urgent care practices.

“Urgent Care centers play a vital role in today's healthcare ecosystem. In order to provide the best patient care and customer experience, urgent care centers need robust software and services like T System COMPLETE CARE to help enhance clinical and financial outcomes,” said Kyle Caple, Executive Vice President for T-System. “By combining our decades in clinical documentation and content with Precision Practice Management's revenue cycle business acumen, we have created a complete technology solution that begins with patient registration, carries through the clinical encounter and after discharge to ensure compliance, drive efficiency and maximize profitability.”
